

## 1. KEY PERFORMANCE AREAS AND PRIORITY ISSUES

The inputs in the matrix are generally addressed in terms of the municipal priority issues herein grouped under five Key Performance Areas, viz.

<p><b>A. <u>Good Governance and Public Participation</u></b></p> <p>1. Good Governance and Communications</p> <p><b>B. <u>Municipal Transformation and Organisational Development</u></b></p> <p>2. Human Resource and Performance Management</p> <p><b>C. <u>Financial Viability</u></b></p> <p>3. Financial Viability and Sustainability</p> <p><b>D. <u>Local Economic Development</u></b></p> <p>4. Local Economic Development and Job Creation</p>	<p><b>E. <u>Service Delivery and Infrastructure Development and</u></b></p> <p>5. Spatial Planning and Land Use Management</p> <p>6. Human Settlements</p> <p>7. Community Facilities</p> <p>8. Municipal Infrastructure and Services</p> <p>9. Safety, Security and Fire and Emergency.</p> <p>10. Licensing.</p> <p>11. Education and Libraries</p> <p>12. Municipal and Primary Health Care</p> <p>13. Gender and Social Development</p> <p>14. Youth Development</p> <p>15. Recreation, Moral Regeneration, Arts, Culture and Sports.</p>
---	---

### 1.1. A: GOOD GOVERNANCE AND PUBLIC PARTICIPATION

#### **Priority Issue 1: Good Governance And Communications**

The council has 29 established Ward Committees. It is expected of every councillor to convene a ward committee meeting and have a ward community meeting within 14 days after every council meeting.

The Ward Committees act as advisory bodies to the Ward Councillors and are the mouth piece for the local communities. Ward Committees are also seen as mechanisms to strengthen the capacity of communities and thus deepen public participation.

#### ***Administration services***

For the council to achieve its goal and objectives, it needs effective and efficient support services in relation to committee service & support services. The administration service therefore is committed to render and act as custodian of Council's administration support services to the entire administrative machinery.

The section will therefore continue compiling good quality reports to Council, Executive Mayoral Committee & Council Committees, implement and facilitate the process of ensuring the passing & executive of resolutions and ensure all Council activities are recorded and/or minuted.

A proper register of all council incoming & outgoing mail through the implementation of relevant policies will be maintained and also avail council services at all times.

### **Legal services**

The legal division intends to conduct legal audit on all legislation having an impact on the municipality in the next financial year to be able to strictly monitor compliance each relevant department and to be able to render the professional legal advice.

*The municipality has also developed the following registers:*

- Contract register – with the intention of properly following up on all the contracts and monitoring compliance thereof.
- Litigations register – with the intention to properly monitor the actions/progress by the municipal lawyers on instructions on civil claims.
- Municipal code & policy register – to keep record of all municipal by – laws & policies.

## **1.2. B: MUNICIPAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT**

### **Priority Issue 2: Human Resource and Performance Management**

The Steve Tshwete Local Municipality recognizes the value of investing in it's workforce through the implementation of a carefully planned training and development initiatives and activities. A skills audit was conducted to determine the kind of skills that employees regard as important for their own skills development needs. A Workplace Skills Plan has been compiled and implemented to provide training on general skills development needs which focus on the organization as a whole.

The other kind of skills development needs focus on specific skills needed in specific departments within the organization. In this instance the Departmental Head identifies the kind of training needs that is important for specific employees in terms of law and informs the Human Resources Department accordingly i.e. refresher training with

regard to technical skills; professional courses etc. Priorities are considered to determine the most critical skills development needs before training can be arranged within the limits of budgetary provisions.

Skills development is aimed at benefiting all employees but, has to at the same time ensure that significant progress is made in advancing the development interests of designated groups in line with Employment Equity targets.

The interpersonal and people management skills of senior and middle managers will continue to be improved through training.

**Table 23: 2013 Skills Development Report as per the approved WSP**

Occupational Levels	Male				Female				Total
	A	C	I	W	A	C	I	W	
Top Management (0)	1								1
Senior Management (1-3)	5		1	1	4			4	15
Professionally qualified and experienced specialists and mid-management (4-6)	10	1		5	3	1			20
Skilled technical and academically qualified workers, Junior Management, Supervisors, Foreman and Superintendents (7-12)	12	1			17	1	1	4	36
Semi-skilled and discretionary decision making (13-16)	3			1					4
Unskilled and defined decision making (17-20)	40					19			59
<b>TOTAL PERMANENT</b>	<b>71</b>	<b>2</b>	<b>1</b>	<b>6</b>	<b>24</b>	<b>21</b>	<b>1</b>	<b>8</b>	<b>135</b>
Temporary employees									
<b>GRAND TOTAL</b>									

In order to recruit, develop and retain critical and scarce skills, the municipality has developed the following policies: Recruitment Policy, Training and Development Policy, Retention and Succession Planning Policy.

The success of the municipal strategies depends on the effectiveness of governance structure and processes. This is also realized through the existing cordial and productive relationship between the administration, political structures and political office bearers of Council.

Improved communication and increase in the level of inter-departmental and inter-municipal communication and cooperation is a critical success factor.

Planning in STLM is regarded as a vital tool to ensure the integration of municipal activities with other sectors of development planning at different levels by serving as a basis for communication and interaction.

The Municipal Integrated Development Plan and Performance Management System serve as the basis for engagement between the council and the community, various stakeholders and interest groups. Because of the municipal set priority issues, plans and resources, the municipality strives to remain a participatory and accountable government to all by ensuring proper planning and performance management.

### **Information Communication and Technology**

To ensure that the information technology infrastructure resources are available, operational and save at all times to support the Municipality in rendering its mandate which is service delivery.

The ongoing research on the new technology is done align the Municipality with the rest of the industry.

The department strives for the protection of the Municipality's information assets from internal and external information security threats, the security of the networks, data and communications, expansion of the wireless networks in the rest of the Municipality and ensure that reliable fibre channel are installed where necessary.

The remote offices are linked to the upgraded Cisco Internet Protocol Telephony which in turn enables officials to communication via telephone extension without paying any cost to Telkom. The plan is to increase the clear two way radio coverage in the rest of the MP313.

## **1.3. C: FINANCIAL VIABILITY**

### **Priority Issue 3: Municipal Financial Viability**

The municipal financial management is regulated by several pieces of legislation and the Steve Tshwete Local Municipality is fully complying with the aim of ensuring sound financial governance. A full payment rate has been sustained for a number of years which has enabled the municipality to sustain high levels of service delivery and to sufficiently provide for the necessary indigent support. The utilization of the equitable share for the provision of free basic services supports indigents against the impact of the local economy.

All in-year reports have timeously been submitted and the municipality intends to continue with the same practice to inform Council on the state of the municipality's financial affairs.

The municipality will continue to prudently monitor expenditure to guard against fruitless and wasteful, irregular and/or unauthorized expenditure. Through the financial management system the Finance Department is able to ensure that all expenditure and income are continuously monitored.

The municipality ensures the proper and accurate valuation of all properties within its area of jurisdiction as well as to keep track of any changes. Such activities are in accordance with the implementation of the Municipal Property Rates Act. The municipality has compiled the new valuation roll in terms of the Property Rates Act, which is for the period 1 July 2009 – 30 June 2012. Thereafter the supplementary roll is compiled annually in line with the act.

Annual Financial Statements are compiled according to the prescribed accounting practices. Since 2002/2003 the municipality has received unqualified audit reports. Corrective steps for matters raised are dealt with immediately and are contained in the oversight report to Council. For the 2009/2010 financial year the municipality obtained a complete clean audit report and will strive to retain the status.

It is important that the municipality continuously take actions to enhance revenue by expanding the revenue base, maintain the collection levels and to create an environment which enhances growth and development.

There must be a balance in the allocation of funds for the capital budget between new infrastructure and the upgrading or replacement of existing assets. This must be done in an efficient manner that will ensure sustainable and affordable service delivery.

***The municipality will continue on its path to sustain financial viability by applying the following core principles:***

- Ensure transparency and accountability;
- Manage revenue, expenditure, assets and liabilities in a responsible manner;
- Adhere to all legislative requirements;
- Well thought-out budgetary and financial planning processes;
- Effective supply chain management;
- Applying full credit control measures; and
- Effective cash flow management.

Lastly the municipality will apply the Batho Pele Principles in rendering an efficient, responsible and effective consumer service to the community.

## **1.4. D: LOCAL ECONOMIC DEVELOPMENT**

### **Priority Issue 4: Local Economic Development and Job Creation**

### **Legislative Requirement**

- South African Constitution (1996)
- The White Paper on Local Government (1998)
- The Municipal System Act (2000)
- The National Spatial Development Perspective:
- Municipal Property Rates Act

Steve Tshwete Local Municipality economy is the second dominant economies in the Nkangala region. The municipality is the host to a number of large industries as well as government departments and as a result strives to provide service to the satisfaction of its clients. Some of the most notable industries in this local economy are Columbus Steel and Eskom Power stations.

At present, the municipal unemployment rate is at 19.71% which is below the Nkangala District Municipality which is at 29.99%. The municipality contributes the second largest percentage in to the Nkangala District Municipality economy after eMalahleni Local Municipality.

The outcomes of the study for Local Investment which was conducted in 2007 indicates that one of the contributing factors to unemployment is the shortage of relevant skills (i.e. technical skills) to the local economy. In an attempt to address the challenge of shortage of skills the municipality in partnership with Middelburg Chamber of Commerce, local industries and the Department of Education hold an Annual Career Expo in order to guide learners' choices of careers in line with the demand of the economy.

Agriculture, mining and manufacturing sectors are contributing a large amount to economic the growth and employment creation in the municipality. There is scarcity of land for mining and agricultural activities which limits the performance of both sectors. The scarcity of land for agricultural activities poses a serious threat to the future of emerging farmers and food security. Climate change is also another negative factor that contributes to food security.

The municipality is home to a number of large industries such as Columbus Steel (therefore the strap line "the home of stainless steel"), Eskom (power generation), the Nkangala District Municipality's headquarters and various government departments. The area is sustained by Eskom power stations, local mines, Columbus Steel, Middelburg Ferrochrome strong agricultural areas, a thriving commercial community and tourist attractions.

As a result of that, the industrial area within the municipality is increasing at a high pace which comes with other economic spin-offs that contribute to the local economic development. The recent opened mall and carbonated soft drink factory (Twizza) have contributed to a large number of job opportunities and another upcoming shopping mall in Mhluzi township is envisaged to have the same positive effect.

**Strategic Objectives: To ensure a better life for the society by coordinating sustainable social and economic developmental programs.**

*Objective: To contribute towards a better life for the community by coordinating sustainable socio- economic development programs.*

*To create a conducive environment for business investment and growth for job creation.*

## **1.5. E: INFRASTRUCTURE DEVELOPMENT AND SERVICE DELIVERY**

### **Priority Issue 5: Spatial Planning and Land Use Management**

#### **Legislative Requirement**

- National Building Regulations and Building Standards Act 103 of 1977
- Town Planning and Townships Ordinance No 15 of 1986
- Steve Tshwete Town Planning Scheme, 2004
- Spatial Development Framework (SDF)
- National Environmental Management Act No. 107 of 1998
- Construction Industry Development Act

In as far as the integrated and sustainable human settlement planning is concerned the municipality is faced with some challenges due to small settlements that have developed in response to mining and coal power station activities in the area. This has led to the formation of smaller centres with good infrastructure, but spatially segregated from any economic activity. The mushrooming of informal settlements and increase of backyard dwellers are a result of people migrating from rural areas and other parts of the country to Mhluzi and Middelburg area in search of job opportunities and better life. Subsequently, the demand for basic services, business, industrial, residential and institutional stands and land for cemeteries has increased astronomically.

Due to weak enforcement of environmental laws, mining activities have destroyed valuable agricultural land and contaminated streams. On the other hand, power stations and certain industries massively contribute to air pollution.

*The municipality has addressed some of the above-mentioned challenges in the following manner:*

- The urban edge as defined by the SDF has been extended to include some of the farms in order to increase the land available for the development of integrated and sustainable human settlements. The SDF encourages planning of towns in a coherent and compact manner in order to discourage urban sprawl and underutilization of prime land that has become a scarce resource.

- The municipality has embarked on establishment of Rockdale North, Dennesig North 1 and 2, Newtown townships in order to create 3300 additional residential stands.
- The establishment Middelburg Extension 49 industrial park comprising 154 stands is almost complete. This development gives effect to the National Spatial Development Perspective and will contribute to economic growth.
- The Department of Human Settlement has donated pieces of land lying adjacent to Somaphepha Village to this municipality. A preliminary study for creating additional residential stands for farm workers and dwellers, business stands other social amenities and land for commonage purposes, has been commenced with.
- Additional shopping centre site has been created in order to stimulate local economic development and bring the service to low income earners.
- Terms of reference for compiling a Long Term Strategic Development Framework with the objective of promoting sustainable development were prepared and a funding source is still to be identified.

**Strategic Objective: To ensure sustainable rural and urban planning and green development within the MP313 area of jurisdiction in order to meet the needs of the communities.**

*Objectives: To ensure orderly spatial planning and sustainable development within the municipal area towards the integration of communities.*

The municipality intends to co-ordinate development in such a way that there will be promotion of health, safety, order and general welfare as well as meeting the needs of the present and future generations. Furthermore, the municipality has adopted laws and policies in order to control development. These adopted laws and policies are enforced by the Town Planners and Building Inspectors by conducting regular inspections and issuing of notices to transgressors. Failure to comply by the transgressors results in legal actions being taken against them with the help from Legal Department.

*To ensure integrated and sustainable human settlements in the municipal area.*

The municipality has adopted a Spatial Development Framework that promotes the integration of social, economic and institutional activities within society. It also encourages planning of towns in a coherent and compact manner in order to discourage urban sprawl and underutilization of prime land that has become a scarce resource. This framework identifies strategic development areas where inclusionary housing should take place in order to correct the historically segregated spatial planning of settlements. All land use and green development applications are evaluated within the parameters of the SDF which is a development guiding document.

*To make provision for habitable and sustainable human settlements.*

Farm workers and dwellers are evicted from farms when they are old and work relationship has turned sour. Security of tenure creates dignity. In strengthening security of tenure, the municipality established Somaphepha, Doornkop and Sikhululiwe rural villages and granted full title ownership of stands to the farm workers and dwellers. Low cost houses have also been built at these villages through the Farm worker housing scheme of the government.

The aim is to create living and working environments that are comfortable and safe without negatively impacting on human health and the environment. Protection of natural resources is of paramount importance. Therefore all development applications are environmental sensitive are subjected to environmental impact assessment process.

*To promote efficient usage of energy in buildings.*

In terms of the National Building Regulations and Building Standards Act, building orientation, as much as possible, should be facing north in order to keep the house warm during winter.

The municipality also promotes and encourages the use of solar energy through the use of solar heated geysers, energy saving bulbs and installation of heat insulation blankets in ceilings.

## **Priority Issue 6: Human Settlements**

### **Legislative Requirements**

- The Comprehensive Plan for Sustainable Human Settlement, Breaking New Ground Policy (2004)
- The Municipal Systems Act, 2000
- The Inter-Governmental Relations Framework Act 2005, (IGRFA)
- National Housing Act 107 of 1997
- Rental Housing Act, 1999
- Social Housing Act of 2008
- CRU Programme - Policy
- Outcome 8 of Government's National Programme of Action (2010 – 2014)
- Municipal Structure Act 117 of 1997

The Steve Tshwete Local Municipality is one of the fastest growing municipalities in the Mpumalanga Province in terms of economic and infrastructural development. The Municipality has succeeded in creating an enabling environment for rapid economic growth, job creation and broadening opportunities. Consequently, the Municipality has since experienced an alarming growth of population, partly due to the continued influx of people from other areas. This rapid population growth has by far outpaced the rate of housing delivery in the municipal area; hence the Municipality occupies the second position, after Emalahleni Local Municipality, in terms of housing backlog within the Nkangala District Municipality. Although the Mpumalanga Provincial Department of

Housing has been supporting the Municipality in the delivery of houses, the demand for housing and Integrated Human Settlements remain large.

Some of the farm dwellers have been evicted from the farms because they are no longer able to offer their services or the work relationship has gone sour. According to the Rural Study conducted by Urban Dynamics Town & Regional Planners in 2004, the estimated housing backlog on farms was 5000 and security of tenure was a serious problem. Currently, the municipality has about 400 hectares of land available for development which is insufficient to meet the demand for stands.

The demand for housing is mostly on low cost housing and affordable housing categories. This demand can be associated with the growth of households living in informal settlements around urban areas and closer to the mines, e.g. Newtown, Uitkyk, Evergreen, Vaalbank, Doornkop (CPA), Kwazamokuhle ext 4, Emahlathini and Skierlik.

There are 29 864 people in need of housing assistance that are registered on the Municipal Housing Data Base with the majority earning less than R3 500.00 per month. The registration is done bi-annually. A separate list of potential beneficiaries for “gap” market is also maintained which comprises of people who typically earn between R 3 501 and R 15 000 .00 per month, one that is too little to participate in the private property market, yet too much to qualify for state assistance.

The increase of backyard dwellers in areas such as Hlalamnandi, Nasaret, Middelburg Ext 24 and Rockdale is directly linked to the lack of affordable housing rental opportunities. Many of these families are living in appalling conditions and are being exploited by the landlords, some of whom have become dependent on rental income. There is lack of progress in conversion of Reabota and Kwazamokuhle hostel into Community Residential Units partly due to the unavailability of funding. The conversion of these two hostels will create affordable rental housing opportunities for people within the income bracket of R 3 501– 7 500 per month.

Mhluzi extension 4, 5 and 6 are identified for *Insitu* housing programme which caters for people who own sites but built shacks on the stands. There are people who are still having an outstanding amount for the stands to be paid to the Municipality therefore cannot be assisted with top structures.

**Strategic Objective: To provide safety and security to human life**

*Objectives: To ensure effective coordination and implementation of housing provision.*

The STLM has employed interventions such as the spatial integration and restructuring in which town and cities are built to ensure effective coordination and implementation of housing provision. The allocation of houses is in line with the allocation policy i.e. first come first service to people on the database.

### *To prevent illegal occupation of land*

Informal settlements present many difficulties relating to formal land use and town planning. These settlements often occur in environmentally high-risk areas, such as on steep slopes or in flood plains, where residents are threatened by mud slides and floods. When land is illegally occupied zoning regulations are ignored and the street layouts become very irregular. Later attempts to provide better access to social and technical infrastructure often involve large-scale relocation which is costly and causes social problems.

The municipality has set up a law enforcement unit to stop people attempting to illegally occupy and which has been identified for housing people on the municipality's waiting list. In fairness to the majority of law abiding people on the waiting, the municipality is adopting zero tolerance approach to the minority trying to invade municipal –owned property.

## **Priority Issue 7: Community Facilities**

### **CEMETERIES**

#### **Legislative Requirements**

- National Environmental Management Act
- Biodiversity Act
- National Heritage Resources Act
- Occupational Health & Safety Act

Currently 11 cemeteries are maintained of which 5 cemeteries are in use. During the past 5 years an average of 1651 funerals took place annually. There are no municipal developed cemeteries in the rural areas and in the mining and Eskom towns such as Pullenshope, Rietkuil, Komati/Blinkpan and Doornkop. In some cases families have to travel far to bury their loved ones. No council land is available in or around these towns and suitable land for the development of cemeteries.

To address the increasing demand on cemeteries, land will have to be identified and negotiations to buy suitable property will have to be made. Although cemeteries in the urban areas are provided for, availability of space for burying and related services are fast becoming a problem. Upgrading of the graveyards is done on an ongoing basis. All new township developments should make provision for cemeteries and be included in the EIA process in order to prevent duplication of processes. Old cemeteries do require further upgrades and major maintenance in order to ensure uniformity of standards throughout the MP313 area.

**Strategic Objective: To ensure provision of affordable and sustainable basic services by upgrading existing and providing new infrastructure**

***Objective: To provide new cemeteries while upgrading existing cemeteries***

*according to the prioritized community needs.*

The municipality intends to meet the ever increasing demand for cemetery space by expanding and providing new burial facilities. Furthermore, burial sites will be maintained well after the cemetery has reached its maximum capacity, out of respect for the people buried and for the convenience of loved ones visiting the sites years after.

## **SPORTS AND RECREATION FACILITIES, PARKS, PLAYING EQUIPMENT AND GREENING**

### **Legislative Requirement**

- National Environmental Management Act
- Biodiversity Act
- National Heritage Recourses Act
- Occupational Health & Safety Act

The provision of sports and recreation facilities, parks, playing equipment and green areas are currently managed and provided by the Department of Physical and Environmental Development. Provision for the commonly practiced sporting codes like rugby, soccer, tennis, cricket etc. is at a reasonably acceptable level in the urban areas. In the rural areas only basic sport facilities like graded soccer fields and basic multipurpose facilities are provided. The need for the provision of all these community facilities in both the urban and rural areas is still great, as indicated at most IDP meetings. However, the availability of suitable council land remains a challenge.

The municipality strives to ensure that all new township developments make provision for sport facilities and space for graded soccer fields at least a minimum size of 11 000m<sup>2</sup>. Access to sport for previously disadvantaged communities still remains a challenge as the land around the settlements is not easily convertible to sporting surfaces for various geophysical reasons.

The environmental hazards have cautioned the world to recognise the importance of natural ecosystems which are at the core of human survival. The municipality is no exception in experiencing environmental challenges especially with the rapid urban growth that poses a threat to the environment. As a result the municipality is employing strategies such as the greening of cities by planting trees. 8000 trees are propagated and 5000 planted annually in line with our Green Development Strategy as a contribution towards the mitigation of climate change impacts.

**Strategic Objective: To promote healthy lifestyles through provision of sport and recreation facilities accessible to all communities**

**Objective:** *To provide new sport and recreation facilities while upgrading existing facilities according to the prioritized community needs.*

With the ever demanding lifestyles of modern times, it is necessary to ensure that people have access to facilities for relaxation of choice, whether for hard core sport or for recreation activities. Professional development for the young and amateurs requires facilities of acceptable minimum standards at the beginning of their careers.

**Strategic Objective: To ensure development of stable and sustainable communities through the provision and maintenance of accessible and reliable municipal social assets and facilities**

*Objective: To provide new parks while upgrading existing parks and open areas according to the prioritized community needs.*

Our fast developing towns and townships leaves a demand for well developed open green areas to ensure healthy lifestyles are maintained. The municipality intends to contribute towards the community cohesion and social interaction by creating well developed open spaces within the residential areas, Children recreational play areas(play equipment, informal play) and passive recreational zones (benches, lawn areas). Well developed and maintained open spaces ensure that the value of open and green areas is recognized and preserved by the community.

**Strategic Objective: To ensure all development and services comply with the evolving “green evolution” in order to reduce the carbon foot print**

*Objective: To contribute towards the mitigation of climate change impacts.*

The earth needs to be looked after and saved for future generations. By planting trees planted developing and maintaining open areas, the municipality ensuring that environment is protected and preserved.

## **BUILDINGS**

### **Legislative Requirements**

- National Building Regulations and Standards Act No. 103 of 1977
- Construction Industry Development Board Act
- Occupational Health and Safety Act
- Architectural Professions Act
- Green Buildings Policy

Municipal Buildings include amongst others, the provision of new municipal buildings and structures and their maintenance, throughout the MP313 area. The municipality's success is dependent on interaction with other internal and external departments to ensure accurate needs assessment and planning for new developments and the necessary maintenance of existing structures.

The challenge faced by the municipality with regards to the Thusong centers is the failure of other governmental sector departments to commit to the usage and occupation of completed buildings.

*Other challenges are:*

- Maintaining municipal buildings for various departments within the allocated budget while ensuring compliance to green development; as resources are scarce
- Lack of capacity to deliver projects by contractors and suppliers
- Vandalism and theft at the municipal buildings that occur frequently
- Lengthy Supply Chain processes that are legislated

**Strategic Objective: To provide municipal building and facilities while upgrading existing ones.**

*Objectives: To provide easily accessible new facilities that accommodate persons with disabilities whilst adapting, upgrading and maintaining existing ones .*

Most of the existing community buildings and facilities were designed and built without taking cognisance of the needs of persons with disabilities. To rectify this, the old buildings will be retro-fitted or upgraded and maintained with the inclusion of such additional disabled-friendly features. New buildings must include the features as part of deliberate design.

*To maintain a healthy and safe environment for the local community visitors and employees.*

The Health and Safety Act requires that all buildings be annually audited for Health and Safety compliance in order to guarantee the safety of all users including visitors. The municipality shall strive to comply with all aspects of the said piece of legislation within all its buildings and facilities for the benefit of the public and employees as well. Recommendations of the annual audits shall be included in budgets and implemented.

*To provide new Thusong facilities whilst upgrading existing ones.*

Thusong centres are being built in all areas of high population density throughout the MP313 area. Communities shall benefit from a variety of public and commercial services clustered together thereby ensuring integration and intensification of various land uses. Such centres are being strategically located for easy access to public services while promoting nodal commercial growth. Existing centres shall be upgraded to improve services to the public on a demand-driven basis according to IDP priorities.

*To promote the construction of Green buildings that minimise wastage of scarce resources thus ensuring a low carbon foot-print*

The Green Development Strategy adopted by Council in response to various national and global imperatives requires that municipal buildings be adapted or retro-fitted in order to minimize energy usage and promote the use of natural resources and local materials where possible. Maintenance or running costs of such buildings are therefore expected to be very low thus minimizing the green-house gas emissions and lowering the carbon foot-print. New buildings shall be designed and built in full compliance with national and local aspirations within the new Green Buildings policies

## **Priority Issue 8: Municipal Infrastructure and Services**

### **SOLID WASTE MANAGEMENT**

#### **Legislative Requirements**

- National Environmental Management Act 107 of 1998
- National Environmental Management Waste Act 59 of 2008
- National Waste Management Strategy of 2012
- National Environment Management: Air Quality Act 39 of 2004
- Occupational Health & Safety Act

A growing municipal population is exacerbating the demand on resources and services, and increasing the generation of wastes to meet many of these demands. Overall, policy measures have not been adequate to counteract the pressures imposed by increasing poverty and uncontrolled consumption

The municipality provides waste management services that include waste collection, street cleaning, clearing of illegal dumping, health care risk waste management and waste disposal. Regular solid waste collection service is provided to business, institutions and households within the jurisdiction of the municipality.

Waste collection from residential premises is carried out on a weekly or bi-weekly basis. The total number of households with access to waste removal services is 55 019 of 64 971(census 2011), which brings the total percentage of households with access to waste removal service to 84.68%. The municipal service extends to all the municipal towns but exclude the mining towns which are self served, Kranspoort, Somaphepha, Mafube and rural areas. The service will probably be extended to Somaphepha and Mafube when household numbers justify such action.

The Middelburg area is experiencing spatial growth both residential and business. As a result, the current municipal resources cannot meet the demand for waste collection.

Waste disposal is centralized, and all waste collected in the various centres (excluding garden waste) is transported to the permitted Middelburg landfill site for disposal. The haulage of waste from Hendrina and surrounding areas creates a huge financial burden on the operating budget due to fuel and maintenance costs, and the landfill is

reaching its lifespan earlier than it was expected. A project for the extension of the landfill site is underway at a total cost of R9m.

The municipality has introduced garden waste services to some households in Mhluzi and intends to continue providing collection containers at strategic points for garden refuse and remove all illegal dumping sites.

The Integrated Waste Management Plan and By-laws have been reviewed and adopted by council. The municipal future target is to have a waste information system, environmental awareness programs and eradication of illegal dumping between 2013 and 2016.

In order to meet demand for waste removal, vehicles should be purchased annually and replaced in accordance with council policy, R1.9m required per vehicle. New landfill sites in Hendrina and Middelburg are intended to be established within the next 5 years at a total cost of R60m. Sikhululiwe, Kanonkop and Aerorand within the next 5 years at a total cost of R3.6m.

**Strategic Objective: To ensure provision of affordable and sustainable basic services by upgrading existing and providing new infrastructure**

*Objective: To ensure a clean and healthy environment through the provision of regular refuse removal services to existing and new developments.*

In order to protect the environment and health of the community, the municipality will continue to render refuse removal services as scheduled. Plans to extend the refuse removal services to rural communities through the acquisition of additional resources, providing refuse removal infrastructure to new developments and procuring of adequate equipment will continuously and consistently be implemented from year to year.

**Strategic Objective: To ensure all new development and services comply with the evolving “Green Environmental Strategy” in order to reduce the carbon foot print.**

*Objectives: To ensure maintenance of the greenest municipality status.*

The Greenest Municipality Competition requires municipalities to become actively involved in advancing the objectives of the Green Economy which encompass the need to facilitate the introduction of initiatives such as greening programmes and introduce programmes which reduce greenhouse gas emissions in order to minimise the carbon footprint. It is necessary to ensure that the Municipality remains the Provincial champion and be in the top three for the greenest municipality competition by delivering innovations within the expectations and requirements of the Greenest municipality ethos. The municipality will ensure that it improves on greening programmes and introduce new aspects from year to year.

*To contribute towards the mitigation of climate change impacts.*

Climate change has observable and non observable effects on the environment. The Department will contribute to combating climate change to protect the environment and human well being through the reduction of carbon emissions by implementation of waste to energy projects, ensuring pro-green capital equipment procurement and specifications and align new designs of infrastructure to such imperatives.

*To contribute towards the growth of the green economy through implementation of waste projects.*

The Department plans to extract methane gas at the landfill site and convert it into energy and to obtain carbon credits. The project will promote sustainable development, economic growth, quality of life and protect the environment by reducing the amount of green house gas emissions to the atmosphere.

*To ensure that people are aware of the impact of waste on their health, well-being and the environment.*

Strategies will be put in place to create public awareness about health impacts of waste through conducting awareness campaigns throughout the MP313 area. Create awareness on waste minimization, reuse, recycling in order to reduce the amount of waste generated and disposed.

*To ensure compliance with national legislation/ policies by reducing the amount of waste disposed at landfill sites through the implementation of appropriate waste minimization strategies.*

The promulgation of the Waste Act (Act No. 59 of 2008), shifts the approach to waste management hence municipalities must embrace the principles of waste minimisation, reuse, recycling and energy recovery as the preferred options to waste management over treatment and disposal to landfill. The municipality will ensure the introduction of waste minimisation projects and encourage separation of waste at source and recycling where possible.

## **WATER SERVICES**

### **Legislative Requirements**

- National Water Act
- Water Services Act
- Regulations for the Blue and Green Drop processes
- Mine Water Regulations (GN 704)

Water services are provided in 99.9% of 64971 households in the urban areas of Middelburg/ Mhluzi, Hendrina/ Kwazamokuhle, Komati/ Blinkpan, Rietkuil and Pullenshope.

In the holiday towns of Kranspoort and Presidentsrus the communities also have a full level of service. Villages and CPA lands are in general served with systems fed from boreholes, using communal taps, with the systems meeting the criteria for a basic level of service in line with RDP standards.

In the rural areas the municipality has initiated a program to provide basic water (25 l per person per day) to households. Supply consists of elevated 10 kl plastic tanks supplied mainly by mobile tankers, and in some instances from existing borehole installations or, in isolated cases by municipal borehole pumps. More than 150 of these tanks have been provided and the project still continues, illustrating the commitment of the municipality to meeting the needs of its community. Supplying water by tanker is quite expensive, and the cost of water supplied is estimated to be in excess of R100 per kl compared to less than R5 per kl in urban areas. As a result of this strategy the municipality has been successful in virtually achieving the goal of eradicating the backlogs in water services in Steve Tshwete municipal area. The sustainability of the method remains questionable though.

Insufficient raw water and aging of equipment in the long term will affect industrial growth. Investigation of possible use of the Mine water and resources to exploit expansion to new areas is at an advanced stage.

**Strategic objective: To ensure provision of affordable and sustainable basic services by upgrading existing and providing new infrastructure.**

**Objective:** *To provide quality and sufficient water supply and an environment not harmful to human health or well being.*

The municipality is responsible to ensure that all infrastructure service are kept in working condition and provide new infrastructure for new services such as new water networks, reservoirs ect. All household should have access to drinking water.

The department of water affairs developed a standard on water quality suitable for drinking. Therefore all water service providers should comply with SANS 241 for drinking. To comply with SANS 241 testing of water is done on regular basis.

## **SANITATION**

### **Legislative Requirements**

- National Environmental Management Act
- Water Services Act
- Regulations for the Blue and Green Drop processes

The provision of sanitation services of the 64971 Household as per census 2011 is a high priority in Steve Tshwete Municipality. The urban areas of Middelburg, Mhluzi,

Hendrina, Kwazamokuhle, Komati/ Blinkpan, Rietkuil and Pullenshope are all served with waterborne sewerage systems. Waterborne sewerage systems linked to septic tanks are used in the holiday towns of Kranspoort and Presidentsrus, and on many farms. The only exception in urban context is Newtown, in Mhluzi. This area serves as temporary accommodation for approximately 2 600 households awaiting allocation of low cost housing and is served with communal dry composting toilets at one toilet per four households, which is inadequate.

The current backlog on sanitation is estimated to be 1381 households according to the Census 2011. To address the backlog the municipality has As a result the municipality has adopted a policy of providing dry composting toilets which is an intermediate service level particularly in the villages and rural areas. The municipality has also embarked on a project to provide dry composting toilet units where concentrations of farm workers live.

Users have complained of the maintenance challenges associated with the technology and a professional independent assessment shall be carried out.

High maintenance cost on the aged equipment as waste water treatment plants reached their design life particularly for Boskrans WWTW has become a major problem. Upgrading works are in progress in order to avoid massive failure.

**Strategic Objective: To ensure compliance with Green Water Requirements in a sustainable way by maintaining a High Quality Service throughout the MP313 area.**

*Objective: To provide a sustainable waste water quality that improves the health, hygiene and environment of the inhabitants.*

The Municipality is responsible for maintenance on the waste water treatments and upgrading of waste water treatment plants and sewer networks. Provide new sewer network connection for the new developments. Most of the installed sewer pipes are aged they are blocked, then to allow free flow sewer they need to be unblocked.

The department of water affairs has set up a standard practice to all Municipalities to comply with the discharge of waste water and should comply with SANS 241. The treated waste water has to be tested on regular basis.

## **ROADS AND STORM WATER**

### **Legislative Requirements**

- Occupational Health and Safety Act 1993
- National Road Traffic Act 1996

The municipality is responsible for 100% access to local roads within the 60km zones, which include all streets within urban and rural area. It ensures the maintenance of a

number of minor district roads which serve small communities and are not regularly maintained, with the objective of addressing specific needs. The majority of municipal roads are tarred and paved, with gravel roads comprising 16% of all municipal roads. The condition of roads is mainly fair to good, with a very small proportion of 1% being in very poor condition.

A vigorous process of tarring roads in the past few years has left most of the roads in urban areas tarred. Provision is made in each financial year for the tarring of a certain number of kilometers of roads. New developments have also had their main roads tarred and storm water systems installed. The plan is to continue tarring more roads in the urban areas and to build gravel roads in the rural villages. It is also planned to pave each year as many sidewalks as the budget allows for. The huge increase in the price of bitumen products is however a challenge which means that lesser roads will be tarred with the funds that will be available in future budgets.

The bridges in the Municipal area are assessed every two years to ensure the safe use thereof. Roads in the rural areas are graded and maintained on a regular basis. High cost of bitumen and its unavailability nationally, combined with increasing heavy traffic volumes using municipal roads are a real threat to sustainability of the road network. A roads master plan is being developed to address some of the identified future needs and challenges

**Strategic Objective: To ensure provision of affordable and sustainable basic services by upgrading existing and providing new infrastructure**

**Objective:** *To ensure provision of new road and storm water infrastructure while maintaining and upgrading existing infrastructure.*

The municipality is responsible for the repairing of potholes on the existing surfaced road, and unblocking and cleaning of drainage ketch pit to maintain free flow stormwater. Upgrading of gravel roads to surfaced roads and installation of new storm water drainage systems. Rehabilitation of existing roads, and re-gravelling and blading of gravel roads in rural and urban on regular basis.

## **ELECTRICAL ENGINEERING SERVICES**

### **Legislative requirements**

- Electricity Act 41/1987
- NERSA regulations
- Occupational Health and Safety Act

The Millennium Development Goal states that 97% of households must have universal access to electricity by 2025. Access to electricity will alleviate poverty as the use of electricity supports lighting and cooking facilities. The 2011 census figures depicts that

there are 64971 households in the municipal area of which 63, 47% households have access to electricity. This backlog is made up of backyard dwellers, rural and farm dweller homes. Eskom supplies electricity to the rural and farm dweller homes. The municipality supplies, upgrades, and maintains electricity to formal townships in terms of the license agreement from NERSA. Indigents receive 50 kWh free basic electricity at 20 Amp on a self targeting basis. Free basic electricity can only be given to customers who have an individual account with Eskom or the Municipality. Area lightning must be provided by Council to all formal villages and townships within the MP 313 area.

There is a shortage of electrical supply capacity from Eskom to the newly built council substations which is being caused by Eskom's bureaucratic processes. The present tariff increase of Eskom restricts increasing tariffs to cover the costs for new developments. NERSA restricts Municipalities to a certain percentage for tariff which prevents capitalization of the new developments. To reduce the carbon emissions an integrated energy efficiency management system must be developed.

The Infrastructure Services Department has a short to medium term infrastructure plan drafted for new developments. These developments are included in the IDP. The infrastructure plan also indicates this shortage in electrical supply capacity from Eskom and when such applications must be made to increase the supply capacity. Applications must be made timeously to Eskom with the objective to get fixed firm prices for the cost to increase the supply capacity. It is required that the electricity master plan be revised and it must include a financial model that must be submitted to NERSA for approval. Presently discussions are being held with an independent power producer to supply electricity to Council to alleviate the shortage of electricity supply from Eskom. An application has been made for grant funding to improve greening by installing energy efficient equipment to reduce the load from Eskom.

**Strategic objective: To ensure provision of affordable and sustainable basic services by upgrading the existing, while providing new infrastructure.**

**Objectives:** *To provide efficient and sustainable electricity supply to the consumers throughout the municipal area*

In order to accommodate new developments a short to medium term infrastructure plan has been developed. The municipality intends to continue maintaining the existing electrical equipment and upgrading on a five (5) year budget. Networks will be monitored by Control Officers to ensure continuity and maintenance of medium and high voltage equipment

The municipality will continue to provide free basic electricity to indigent customers on a self targeting base whereby the indigent applies to be on a 20 Amp circuit breaker and 50 kWh free basic electricity per month

The total energy losses vary between 7 and 10% which is in line with the actual technical losses. The municipality will strengthen the audits of all energy meters every second year to ensure correctness and verify that tempering is not taking place. The aim is to also ensure cost effective tariffs and reduce theft.

*To encourage the use of alternative energy to consumers with or without access to the existing electricity grid*

## **Priority Issue 9: Safety, Security, Fire and Emergency**

### **SAFETY AND SECURITY**

#### **Legislative Requirements**

- National Road Traffic Act 93 Of 1996
- National Land Transport Act 5 Of 2009
- Criminal Procedure Act 51 Of 1977
- Control of access to Public Places and Vehicles Act 53 of 1985
- Private Security Industry Regulation Act 56 Of 2001
- Firearm Control Act 60 of 2000
- Mpumalanga Business Act of 1996
- National Business Act

The core function of the Traffic Services is to make the roads safe for all users within the municipal area whereas Security Services deals with safeguarding of the municipal property, personnel and its residents. This is done through visible law enforcement, road safety campaigns and awareness programmes.

Road traffic injuries remain a major public health problem and leading cause of death around the world, Steve Tshwete Local Municipality is no exception. The United Nations adopted a resolution which is the “Decade of Action for Road Safety” with a goal to reduce the road traffic fatalities around the world by 50% from 2011 to 2020. The objectives of the department are crafted in such a way to address the above mentioned epidemic.

During 2011, 3360 accidents occurred in the Steve Tshwete Local Municipality with 35 fatalities. An increase of 98 accidents was recorded in 2012, with a decrease of 9 fatalities. Subsequent to these accidents, the municipality decided to send four Traffic Officers to the Basic Crash Investigation Course. These Officers will investigate the cause of crashes especially the serious ones. This will assist in putting up corrective law enforcement counter measures which will reduce the accidents in the area.

It can be deduced that speeding and drunken driving are the major causes of accidents. A speeding unit has been established to deal with speeding enforcement and random drunken driving operations are conducted to curb the problem. An unmarked vehicle has been purchased to deal with moving violations.

All of the above operations have reduced the fatality rate however the municipality is still ensuring that traffic law enforcement is conducted continuously. Community road safety awareness campaigns are held especially at schools and companies to inform the community about road safety issues and Road Traffic Act amendments.

The Security Services is responsible for the safeguarding of Council's assets and employees. Cable theft is the main challenge for the municipality. After the appointment of the current Security Company a tremendous decrease in the theft of cables has been noted.

### **Strategic Objective: To Provide Safety And Security To Human Life**

**Objectives:** *To create an effective and efficient law enforcement within the municipal area.*

Due to the high number of collisions within the Municipal area, the municipality has employed different strategies to reduce collisions. Selective law enforcement will be done at the high accident zones where officers conduct different law enforcement duties e.g. utilization of specialized traffic vehicles to curb illegal moving violations and road blocks with different emergency services will be conducted.

#### *To improve the free flow of traffic*

The number of vehicles has drastically increased which causes congestion during peak hours. The municipality is continuously installing traffic signals that relieve the congestion and traffic officers will be deployed to control the flow of traffic in areas where traffic signals cannot be installed.

#### *To improve road safety*

Amongst the measures that are implemented by the municipality to improve road safety is the construction of traffic calming measures at different streets to reduce the speed of vehicles. Traffic wardens are deployed to areas that require traffic control particularly for schools.

To enhance safety and security at all municipal buildings and facilities

The municipality intends to implement stringent monitoring of the security company that is employed to provide safety and security services.

## **FIRE AND EMERGENCY**

### **Legislative Requirement**

- The Fire & Disaster Management Services adhere directly to the following legislation:
- Fire Services Act, Act 99 of 1987.
- National Building Regulations and Building Standards Act 103 of 1977.
- Occupational Health and Safety Act 85 of 1993.
- Hazardous Substances Act, Act 15 of 1973 as amended.
- National Road Traffic Act 46 of 1998.
- Disaster management Act 57 of 2002.
- National Veldt and Forest Fire Act 101 of 1998.
- Explosives Act, Act 26 of 1956 as revised.

The Municipality has well established Emergency Services for fire and rescue. The main station is in Middelburg and Hendrina. An additional fire station is envisaged to be established which will serve Mhluzi area. Satellite stations are envisaged in Kranspoort and in the Industrial area in Middelburg to comply with the Regulations of South African National Standards, which require arrival at the scene of an emergency within at most 15 minutes.

Medical Emergency Services which handles ambulances is a function of Province. Ambulances servicing the Municipal area are stationed in Middelburg and Hendrina. The department is also using private ambulance services to serve the community during emergencies.

The Level 1 Disaster Management Plan and the Contingency Plan are active and revised annually including an updated resource list.

**Strategic objectives: To provide safety and security for human life.**

*Objectives: To provide effective and efficient emergency services*

### **Priority Issue 10: Licensing**

#### **Legislative Requirement**

- National Road Traffic Act
- Mpumalanga Business Act:
- Councils by-laws
- S.A.B.S. (S.A.N.S) Act

The Steve Tshwete Local Municipality is an agent of the province in the administration of driver's and vehicle licences. The municipality is also responsible for the issuing of licences for business premises.

The licensing services have improved since the introduction of e-Natis system. The system has proven to be effective and quick in that the licensing transactions are mainly computerised which minimises the prolonged processes that were susceptible to corruption.

Previously the municipality had a backlog in the booking of drivers and learners classes. An applicant would have to wait up to ±3 months before securing an appointment. People had to queue a night before at the entrance to the licensing offices to secure an appointment. To alleviate this problem an additional testing track to test for drivers' licenses was constructed and additional qualified examiners for learners and drivers licenses were employed. The Municipality has since changed its turn-around time from ± 3 month to 7 days. This means that an applicant can secure a booking for drivers or learners licenses within 7 days.

This has led to applicants from neighbouring municipalities flocking in large numbers to Steve Tshwete Municipality for the improved service. As a result the municipality is again experiencing long queues and applicants have to stand in the open even during adverse weather.

The issuing of licenses for businesses is a responsibility of the municipality. Before the licenses are issued inspections are conducted in line with the municipal fire, health and town planning requirements. Regular physical inspections are done in collaboration with the SAPS to ensure that all businesses comply with the regulations.

**Strategic Objectives: To provide responsive, accountable, effective and sustainable public services**

*Objectives: To provide effective and efficient Licensing Services and to ensure that all drivers using the roads are competent.*

## **Priority Issue 11: Education and Libraries**

### **Legislative requirements**

- Mpumalanga Provincial Library and Museum Service Ordinance (Ordinance 20 of 1982)
- Local Government Ordinance, (Ordinance 17 of 1939)
- The Standard Library By- Laws

Library services are provided by the municipality with eleven functional libraries. According to the 2011 census, there were 46798 learners who were attending ordinary formal school, 455 were in special schools and 4318 were undertaking formal education. Only 1753 residents were involved in Adult Basic Education and Training.

As the education curriculum keeps on changing, libraries are becoming a great need and an essential for students hence recently the libraries are faced with over population and limited resources. The municipality strives to continuously upgrade and improve the standard of the libraries so as to match the increasing technological development

that requires and challenges the libraries to be abreast with the latest and updated innovation in ICT (Information Communication Technology). It is envisaged that the municipal libraries will in future have adequate computers to offer effective self help computer services to the community at large.

The municipality has initiated an outreach programme which is intended to render library services to various institutions within the municipal area. Institutions such as old age homes, hospitals are visited to extend the services to people who are unable to reach the library facilities.

There is still a need to intensify the extension of the library services particular to the rural communities that are still experiencing limited access to information. To address this challenge, the municipality has distributed books to the rural schools that were donated by the Middelburg Rotary Club and Xstrata Coal. These companies also assisted in establishing school libraries in some of the rural schools.

A reading club which comprises of reading groups from different institutions was established in April 2012 with the aim to conscientise the residents about the importance of reading.

**Strategic Objective: To contribute towards a healthy, well informed and environmentally safe community.**

**Objectives:** *To enhance education through the provision of libraries and educational material.*

Books and related material will be made available to all members of the public. The cultural, educational and intellectual status of the community will be raised when libraries are used by the community members. Libraries will ensure the provision of supplementary information material to those who are taking formal education. Books and other library material will be preserved for future generations and Information will be made electronically available to the community.

*To promote the culture of reading and access to information for all*

Reading marathons and campaigns will be conducted in all libraries to instil the culture of reading to children in the community. Holiday programs and children's activities will be conducted during school holidays to ensure that libraries are a hub of safety and recreation to the young citizens of the municipality. Reading club sessions will be conducted to enhance the culture of reading and lifelong learning among the adults in the community. Information services will be provided to ensure access of information to the community.

## **Priority Issue 12: Municipal and Primary Health Care**

### **Legislative requirements**

- National Health Act No 61 of 2003

- National Environmental Management Act No 107 of 1998 as amended
- Hazardous substances Act No15 of 1973
- Nursing Act No 33 of 2005
- Medicine and related substances Act 101 of 1965
- Health Professions Act, 56 of 1974 as amended
- SA Medical Research Council Act, 58 f 1991
- Pharmacy Act, 53 of 1974 as amended

The Municipality is running the services on behalf of the Provincial Department of Health and owning 12 clinics, and 10 out of 12 clinics are fully managed by the municipality and sharing 2 clinics with the Department of Health. The rural areas depend on the mobile clinics coming ones and twice a month to access the Primary Health Care service from the Department of Health.

Looking at the figures from the 2011 Census, they show that the Mpumalanga population has increased from approximately 3, 3 million to 4 million over the past ten years, representing at 20% increase - the third largest increase of the nine provinces according to Statistics South Africa. The Mpumalanga province HIV prevalence has declined from 32, 6% in 2009 to 27,2% in 2010, a decrease of 5,4%. Therefore strengthening of Primary Health Care services will assist in the reduction of new infections.

HIV & AIDS has posed a serious challenge around the world in terms of the control of the spread and treatment of the virus and Steve Tshwete Local Municipality is not an exception in this regard. Looking at the figures from the 2011 Census, it shows that the Mpumalanga population has increased from approximately 3, 3 million to 4 million over the past ten years, representing at 20% increase, the third largest increase of the nine provinces according to Statistics South Africa. The Mpumalanga province HIV prevalence has declined from 32,6% in 2009 to 27, 2% in 2010, a decrease of 5,4%. Therefore strengthening of primary health care services will assist in the reduction of new infection.

The MP313 situated along Maputo corridor and surrounded by coal mines imposing the mankind and environment under severe pressure. Currently the health resources available are rather thinly stretched because of the high demand. Moreover, the process of provincialisation of primary health care by the Department of Health is causes destabilization of Primary Health Care services in the municipal clinics.

Although all the most of the clinics provide required services, some clinics are not accessible due to the space limitation within the clinics themselves, e.g. Mobile clinic in Newtown. The rapid population growth in the Newtown and other informal settlements make it difficult and sometimes impossible to attend to all patients.

**Strategic Objectives: To contribute towards a healthy, well informed and environmentally safe community.**

**Objectives:** *To provide an effective and efficient personal Primary Health Care and municipal health services.*

The municipality is striving to put resources in place to accommodate the existing workload despite the fact that rendering of health services is the competence of Provincial Department of Health and the municipal health services belongs to the District Municipality.

*To contribute towards the minimizing of the spread of HIV, AIDS, STI and TB*

HIV and AIDS have played a major role in increasing the mortality rates of mothers and children. A new discourse on HIV and AIDS is being initiated. New policies and strategies will be implemented to combat the scourges of HIV and AIDS and Tuberculosis.

*To create safe and healthy environment for the community*

The municipality will strive to promote nature conservation and secure ecological sustainable development. There are monitoring measures in place to monitor air, noise, land, food and water pollution so that the community can be safe and healthy.

### **Priority issue 13: Special Programmes**

#### **Legislative Requirements**

- Commission on Gender Equality Act 39 of 1996
- Gender Policy Framework for Local Government
- Children's Act 38 of 2005
- National Welfare Act 100 of 1978
- Social Assistance Act 13 of 2004
- Older Person's Act 13 of 2006
- Social Work Act 110 of 1978 as amended
- White Paper for an Integrated Disability Strategy of the Government on National Unity
- HIV and AIDS and STI National Strategic Plan, 2012-2016
- Disability Framework for Local Government 2009-2014

Steve Tshwete Local Municipality recognizes the increasing challenges in service delivery especially for the children, women, person's with disability, older persons, HIV and AIDS issues.

In as far as the special programmes planning is concerned the municipality is faced with various challenges developing as a result of migration for employment opportunities which does not single out social issues HIV and AIDS, disability, vulnerable and orphaned children.

According to Census 2001, the population percentage of children from 0 to 14 was estimated at 29.6%, Community Survey in 2007 estimated population percentage of children from 0 to 14 as 25.1% and Census 2011 the population percentage of children from 0 to 14 is estimated at 25.0%.

The statistics shows a declining number of children from 0 to 14. The decrease or decline might be as a result of health and social challenges as stated in the IDP community inputs.

Schedule 4 Part A of the Constitution of the RSA affirms the commissioning and provisioning of the welfare services to be the responsibility of both National and Provincial spheres of government. However the collective responsibilities of the local municipality, stakeholders and the civil society will focus on providing services for the special groups to meet their expressed and felt needs. This has led to the establishment of Local Aids Council and Stakeholder Forum for Children's Rights chaired by the Executive Mayor or the Member of the Mayoral Committee.

IDP Forum, Mayoral Outreach, Public Participation, indigent policy etc. are other platforms or forms used by the municipality to reposition it self to meet the demands of the Special Groups and to address some of the critical transformation challenges. Provision of facilities like municipal buildings; land etc. for Early Childhood Development Centre's, luncheon club centre's are donated as a means of creating a conducive environment. There are also other committees and forums which focuses on these priority issues like, the stakeholder forum for person's with disability and the institutional committee.

**Strategic Objectives: To contribute towards a better life for the communities by coordinating sustainable social and economic developmental programmes.**

*Objective: To create an environment with clear regulatory framework for implementation of gender and social development.*

*To ensure quality life through integrated services for the children, women, person's with disability and the elderly person.*

#### **Priority Issue14: Youth Development**

##### **Legislative Requirement**

- National Youth Policy
- National Youth Development Agency ACT 2008

Since the establishment of the Youth Development Unit, a number of young people have been assisted on issues such as educational support, career guidance, job preparation, entrepreneurship development, and life skills and sports development.

The municipality is aiming to capacitate the unit by adding more personnel in order to ensure an effective functioning of the unit.

In terms of educational support, the municipality will inter alia introduce and formalize after school learning programmes in which volunteers will assist learners on challenges experienced specifically on critical subjects.

**Objectives**

- To create interventions aimed at providing access to quality education and skills development to both out of school and in school young people
- To develop a youth development policy and youth development strategy in line with the NDM,MP and National government
- To initiate programmes directed at combating crimes ,substance abuse and social decay
- To increase youth participation in the socio economic programmes

**Priority Issue 15: Recreation, Moral Regeneration, Arts, Culture and Sports.**

STLM has introduced the Moral Regeneration Movement (MRM) which is aimed to serve as networking platform mandated to facilitate, coordinate all processes and initiatives aimed at combating moral degeneration. Working with and through local structures in communities, the MRM seeks to promote local action and commitment from within the various communities of the STLM at their levels of existence and operation.

The Moral Regeneration movement gives opportunities to redouble our efforts as a full partnership of the people, also to pay special attention to issues of development, social cohesion, and society building, as well as traditional and cultural programmes.

**6. MUNICIPAL STRATEGIES INDICATION**

**6.1. Strategic Goals**

In pursuit of its vision and mission, the Municipality has identified the seven (7) strategic goals.

These goals are envisaged to be met by means of executing set objectives and strategies categorized in terms of respective municipal priority issues. The goals and what they entail are as presented in the following table:

**Table 24: Strategic Goals**

<b>1. Poverty Alleviation</b>	<b>2. Good Corporate Governance</b>
<ul style="list-style-type: none"> <li>• Implementation &amp; Monitoring of HIV/AIDS Programmes</li> <li>• HIV/AIDS Workplace Policy internally</li> </ul>	<ul style="list-style-type: none"> <li>• Administrative Management</li> <li>• Human Resource Management</li> <li>• Develop HR Reports and Systems</li> </ul>

<ul style="list-style-type: none"> <li>• Local HIV/AIDS Council</li> <li>• Implementation &amp; Monitoring of TB Control Programmes</li> <li>• Public Health Services Initiatives</li> <li>• Health Services Maintenance of existing Infrastructure</li> <li>• Upgrading of Clinics</li> <li>• Public Health Services Strategic Initiatives</li> <li>• PHC Key Performance Indicators</li> <li>• PHC Service Delivery</li> <li>• Clinic Services</li> <li>• Mother and Child Health Care</li> <li>• Free Basic Services</li> <li>• Refuse Removal</li> <li>• Sanitation</li> <li>• Electricity</li> <li>• Water</li> </ul>	<ul style="list-style-type: none"> <li>• Efficient Personnel Administration</li> <li>• HR Skills Development</li> <li>• Implement Occupational Health and Safety Risk Management System</li> <li>• Compliance with NOSA Safety System</li> <li>• Manage Loss Control Ratio</li> <li>• Labour Relations</li> <li>• Local Labour Forum</li> <li>• Recruitment, Selection, Retention, Exit Policy &amp; Procedure</li> <li>• Internal Service Delivery</li> <li>• Implement Legal Capacity</li> <li>• Records Section</li> <li>• Switchboard and Reception</li> <li>• Effective IT Services</li> <li>• Effective use of Performance Management System</li> <li>• Political Management</li> </ul>
<p><b>3. Economic growth and Development</b></p>	<p><b>4. Good Co-operative Governance</b></p>
<ul style="list-style-type: none"> <li>• Establishment of an LED Office</li> <li>• LED Strategy</li> <li>• LED and Job Creation</li> <li>• New Businesses attributable to LED</li> <li>• Marketing Strategy</li> </ul>	<ul style="list-style-type: none"> <li>• Effective Public Relations Strategy</li> <li>• Internal liaison and Communication</li> <li>• External Liaison and Communication</li> <li>• Awareness Campaigns</li> <li>• Ward Committees Forums</li> </ul>
<p><b>5. Financial Viability</b></p>	<p><b>6. Integrated environmental, social and economic spatial planning</b></p>
<ul style="list-style-type: none"> <li>• Cash Flow Management</li> <li>• Monthly cash flow</li> <li>• Implement Financial Administrative Functions</li> <li>• Financial Reporting</li> <li>• Improve Controls and Procedures</li> <li>• Improve Financial Performance</li> <li>• Manage Revenue</li> <li>• Payroll Administration</li> <li>• Property Valuation Services</li> </ul>	<ul style="list-style-type: none"> <li>• Integrated Environmental Management System</li> <li>• Environmental enhancement</li> <li>• Spatial Development Framework</li> <li>• Town Planning Services</li> <li>• New Residential sites allocation</li> <li>• Town Planning Initiatives</li> </ul>

## 6.2. Priority Issues, Objectives and Strategies

The priority issues in the Municipality are formulated in such a manner that they address the 5 Key Performance Areas as illustrated on point 5 above. Under each priority issue there are appropriate objectives and strategies that would lead to the realization of the objectives.

In setting its objectives and strategies, Steve Tshwete Local Municipality used *inter alia* the following as requirements to ensure an informed development planning:

- Millenium Goals;
- Community Inputs 2011 and 2012
- Municipal Spatial Development Framework;
- District Development Strategy;

- Provincial Growth and Development Strategy;
- National Spatial Development Perspective.
- 2010 Municipal Turn Around Strategy
- 2010 Presidential Outcomes
- Vision 2014.

**A: GOOD GOVERNANCE AND PUBLIC PARTICIPATION**

**6.2.1. Priority Issue 1: Good Governance and Communications.**

Table 25: Priority Issues, Objectives and Strategies

Public Participation		Strategic Objectives: To ensure effective community participation and interaction.		
Status quo		Development Strategies		
Requirements	Baseline Information	Objectives	Strategies	Possible Project/ Activities
<p><b>Manifesto:</b> The success of the municipal strategies depends on the effectiveness of governance structures and processes. This will be realized through a cordial and productive relationship between the administration, political structures and political office bearers. -Promote more active community participation in local government -We will ensure that Ward Communities for all wards are established and functional. -It will be ensured that Ward Councillors have report back meetings with their constituencies within 14 days after every ordinary council meeting. -We will provide all the necessary administrative support to Ward Committees. -At least six mayoral outreaches will be undertaken every year. -Interaction forums with recognized stakeholders will be created. In this regard special attention will be given to the youth.</p>	<p>All ward committees have been established. Community participation strategy was approved by Council.</p>	<p>To promote the involvement of Stakeholders in Council's affairs.</p>	<p>Provide feedback to community</p>	<p>Report be submitted to Section 79 on matters raised by ward committees</p>
			<p>Provide effective administrative support.</p>	<p>Provide pro-forma agendas to ward committees.  Submit bi-monthly reports on the activities of ward committees.</p>
			<p>Capacitate Ward Committee Members.</p>	<p>Coordinate training programs for ward committee members.</p>
	<p>Mayoral outreach dates approved by the Mayoral Committee for the 2011/2012 and 2012/2013 financial year</p>	<p>To ensure regular consultation between Council and the Community.</p>	<p>Strengthen community participation.</p>	<p>To annually adopt the schedule of mayoral outreach dates.</p>
	<p>IDP Forums in existence, Joint Development Forum (JDF), Pastor's Forum, Local Labour Forum,</p>	<p>To promote the involvement of Stakeholders in Council's affairs.</p>	<p>Strengthen relations with recognized stakeholders.</p>	<p>Co-ordination and facilitation of mayoral outreaches.  To develop a stakeholder database.</p>
Communication		Strategic Objectives: To ensure effective community participation and interaction.		

Status quo		Development Strategies		
Requirements	Baseline Information	Objectives	Strategies	Possible Project/ Activities
<p><b>Manifesto:</b> -Through the Communications Department we will ensure that the citizens are at all times fully informed of municipal activities.</p> <p>-We will improve communication and increase the level of inter-department and inter-municipal communication and cooperation.</p> <p><b>Institutional:</b> Market the Municipality Management of events.</p>	<p>Local Communicators Forum (LCF) established.</p> <p>Continuous interaction with the media.</p> <p>Print and electronic media were used as marketing tools.</p> <p>Interdepartmental communication is done through memos, email, intranet, public address system, internal newsletter, bulk SMS System and executive management meetings.</p> <p>Currently in partnership with Busmid to market the municipality.</p> <p>Branding was done through display of promotional material at relevant functions.</p> <p>Stakeholder database compiled Existence of the Events Policy.</p>	<p>To strengthen communication with internal and external stakeholders</p>	<p>Review of communication policy.</p> <p>Engaging the media in communicating municipal activities</p>	<p>Submission of the communication policy to Council.</p> <p>Develop and implement a program of interacting with print, electronic and social media on municipal activities.</p>
			<p>Engage government sectors to improve the municipal communication strategy</p>	<p>Identify best practices to be learnt.</p> <p>Develop and implement a program to visit other municipalities.</p>
		<p>To market municipal programs and projects</p>	<p>Develop a marketing policy</p>	<p>Implement activities as captured in the policy</p>
		<p>To ensure proper coordination of all municipal events.</p>	<p>Successfully coordinate events.</p>	<p>Develop annual events calendar.</p>

Legal services	Strategic Objectives: To ensure effective community participation and interaction.
Status quo	Development Strategies

Requirements	Baseline Information	Objectives	Strategies	Possible Project/ Activities
<p><b>Manifesto:</b></p> <p>-Improve local public services and broaden access;</p> <p>-We will approach Optimum Coal Holdings to donate buildings at Koorfontein and Blinkpan to the municipality which will be converted into clinics, paypoints, community halls and libraries.</p> <p>-Middelburg Mine will be approached to donate the remaining unused hostel to the municipality.</p> <p>-Build more united, non-racial, integrated and safer communities</p> <p>-The Council will act as implementing agent for the settlement of restituted communities at Somaphepha and Botshabelo.</p> <p>-Ensure more effective, accountable and clean local government that works together with national and provincial government</p>	<p>Eskom was approached to donate the building for library services.</p>	<p>To improve access to services at the Mines and Eskom villages.</p>	<p>Secure buildings to accelerate service delivery to people residing at the Mines and Eskom villages</p>	<p>Interact with relevant Mines and Eskom</p>
	<p>Koorfontein Mine was approached to donate the building for a workshop for Small Medium Macro Enterprises (SMME's).</p>			
		<p>Acted as implementing agents for Botshabelo and Restitution Funds have been paid over by Land Claims Commission.</p>		

<b>Administration Services</b>		<b>Strategic objective: To provide support for the provision of services of the highest possible standards to the satisfaction of the residents.</b>		
<b>Status Quo</b>		<b>Development Strategies</b>		
<b>Requirements</b>	<b>Baseline Information</b>	<b>Objectives</b>	<b>Strategies</b>	<b>Possible Project/ Activities</b>

<p><b><u>Manifesto:</u></b></p> <p>-We will ensure that the administration continues compiling good quality reports to Council, the Mayoral Committee and Council Committees, implement and facilitate the process of ensuring the passing and execution of resolutions and ensure all Council activities are recorded and/or minuted.</p> <p>-A proper register of all council incoming and outgoing mail will be maintained.</p> <p>-A legal audit will be conducted on all legislation having an impact on the municipality to ensure full compliance by the municipality.</p> <p>-The recommendation as contained in the king III report will be incorporated into the municipal governance as prescribed.</p> <p>-Ensure more effective, accountable and clean local government that works together with national and provincial government.</p>	<p>Secretariat services provided to council, mayoral committees and its committees.</p>	<p>To render effective secretariat services.</p>	<p>Promoting institutional efficiency.</p>	<p>Submission of annual schedule on dates for Council, Mayoral Committee and Portfolio meetings.</p>	
	<p>Approved file plan and implementation thereof Document Management System in place Updating of incoming and outgoing register on monthly basis.</p>	<p>To maintain proper Records Management Systems</p>	<p>Maintaining the implementation of Records Management Policy.</p>	<p>Provision of secretariat services to Council, Mayoral Committees &amp; Portfolio committees</p> <p>Annual reviewal of the file plan.</p>	
	<p>Continuous training on the Electronic Document Management System</p>	<p>Legal compliance register developed</p>	<p>To improve legal compliance</p>	<p>Monitoring of legal compliance.</p>	<p>Report submitted on monitoring incoming &amp; outgoing correspondence.</p> <p>Continuous update of the legal compliance register.</p>
